Due to extensive rainfall in the Hope, AR area, the ground is currently saturated. Utility locates cannot be completed until the ground is completely dry. Depending on the weather, and the availability of contracting a new driller, I am shooting for Sept 6-8th or Sep 12-16th.

Subject: check in with Susan and Petersen on the status of your Hope Metals assessment.

Nic – Chris Ruhl informed me that you did not get selected to serve on jury duty. He stated that you would be available to deploy back to Louisiana if needed. In order that we may prioritize the work that we assign you, I need for you to meet with Chris Petersen and Susan to discuss the Hope Metals site and the schedule for completing the assessment. It is my understanding that this is a Branch priority. Please keep them informed of all issues, delays, progress, etc that arise at the Hope Metals site.

Thanks for your cooperation in this matter. If you have any questions, please contact me.

Monica
